

Holy Family Hospital

A CARITAS FAMILY HOSPITAL

FACT SHEET: New Emergency Center

VIEW OUR EMERGENCY CENTER VIDEO ONLINE AT WWW.CARITASCHRISTL.ORG/THRIVE

Holy Family Hospital's all-new Emergency Center marks an important milestone in our 60-year commitment to providing world-class medical care right here in the community. This new center, which almost doubles our emergency care capacity, will provide patients and families from the Merrimack Valley and southern New Hampshire with access to advanced emergency medicine.

Emergency Department

Holy Family Hospital's current ED was constructed in the 1970s to serve 25,000 visits annually. The oldest ED in the Merrimack Valley, it is also the very last "circular" building ever designed for medical care. Today, the same department serves 41,000 patients annually and with the new construction will serve more than 50,000 visits in 2011.

Construction Facts – Emergency Department:

12,000-square-foot expansion will result in a 26,000 square foot Emergency Center

New design and expansion will offer improved efficiency, comfort, and privacy for patients and families by providing:

- 34 all private treatment bays,
- including 6 Fast Track and
- a double trauma room;
- state-of-the art CT Scanner on site

Other Facts

Total cost of the Emergency Center \$21 million.

Holy Family's Emergency Center is among the first of seven projects to break ground at Caritas Christi Health Care's six hospitals. These projects total \$100 million and account for 117,000 square feet of new hospital space throughout Massachusetts. Expected completion: mid-2011

4,367 potential new jobs will be created by these projects, including:

- 110 design, engineering and consulting jobs
- 500 construction jobs
- 500 new jobs from hospital projects
- 3,757 related stimulus jobs
